

REACH FOR THE STARS PROGRAM

The program was designed by me to work on your child's game, and to keep them enthusiastic and motivated in achieving their goals each week. The program is goal orientated and encourages the children to hit the ball accurately and technically correct.

Each week we set various goals and then record their scores at the end of each lesson, at the end of the term we add up the scores and a score of 1 – 8 receive bronze status, 9 – 16 will receive silver status and 16+ will receive gold status. At the end of the year all children will attend an award ceremony and receive a medal and certificate.

Trophies will be awarded to children who achieve gold status for all four terms. Rookie trophies are awarded for three gold stars and one silver throughout the year. The objective of the game is to hit the ball in the court focusing on good technique, depth and consistency and be awarded stars. The children love it!

There is a minimal fee of R85.00 per year to cover costs for this program and all children are expected to take part in order to feel a part of the program. This includes a festival of fun games and matches at the end of the year.
